# About Us

Having a love of science and a knack for baking, Danielle Black began her journey to have an all natural lifestyle and started exploring what was really in our everyday products. The idea of creating an all natural, sustainable product for your home, while remaining environmentally conscious made her research more and more. This is where Soap Made Simply began.

Soap Made Simply now has an extensive range of products made with locally sourced, all natural ingredients, and 100% therapeutic grade essential oils. Her product list continues to grow while maintaining her values and quality in everything she makes, from choosing every ingredient, to the manufacturing process.

Based out of southeastern Kentucky, Danielle started this business by attending craft fairs, town festivals, and farmers' markets regularly. Now, Soap Made Simply is sold in stores all across the country. She hasn't forgotten how she got started though. She gives back by donating to local shelters, and even to the animal shelters.

The business wouldn't be where it is today without the loyal support of our faithful clientele. You will love being a part of the Soap Made Simply family.
